This is a Single Modular Approval. Power listed is conducted. Approval is limited to OEM installation only in devices that provide regulated 3.3 VDC to the module to guarantee stable power supply according to the requirements of DA 00-1407. This device is to be used only for mobile and fixed applications. The antenna must not be collocated or operating in conjunction with any other antenna or transmitter. OEM integrators must be provided with antenna installation instructions. This grant is valid only when the device is sold to OEM integrators and the OEM integrators are instructed to ensure that the end-user has no manual instructions to remove or install the device. Separate approval is required for all other operating configurations, including portable configurations with respect to 2.1093 and different antenna configurations.
